“NO TWO VENUES ARE THE SAME. WE PROVIDE A RANGE OF SEATING PRODUCTS TO SUIT EVERY CLIENT, EVERY VENUE, EVERY EVENT.”

A Product Range that is Second to None

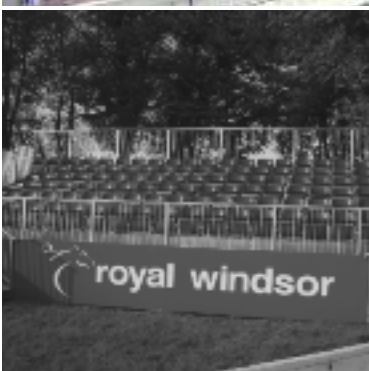

Arena Seating has invested in the design and development of a comprehensive range of tiered seating products, which provide solutions for the smallest to the very largest of clubs, venues and clients.

From the LT range of covered grandstands aimed at small local clubs and venues, up to bespoke tiered stands for Premier League Sports Clubs or the Arena Diplomat Conference Seat, we have a product to suit any requirement or budget.

Any of our hire product range can also be purchased to enhance your facilities. Bespoke designs can be commissioned from us should your seating problem be unique or unusual utilising our in-house team of Engineers and CAD Operators.

Arena Seating has:

- 30 years' experience in the design of seating products
- a team of CAD Designers and Engineers
- a complete range of tiered seating solutions
- Project Management and Logistics Experts

The Arena Tiered Seating System

The classic Arena demountable tiered seating system upon which we have built our reputation is available for **sale** or **hire**.

The system can be supplied for Sale in a flexible range of configurations and in a 254mm or 152mm rise format as standard, providing a cost effective permanent or demountable grandstand solution for sports clubs and venues.

This product is an economical and flexible option, which can be permanently in position, moved around the venue or even added to on a sale or hire basis as requirements change.

Bespoke designs can be commissioned to specifically fit the requirements of new and existing venues utilising our team of Engineers and CAD designers.

Other products in this range aimed at Conference facilities, TV studios and so on include the Arena Congress and Arena Diplomat tiered systems, which are outlined in a separate brochure.

The system can include the following features as standard:

- flexible configurations
- roof covers
- staircases
- wheelchair platforms
- elevated front row
- camera platforms

Bespoke Seating

To provide our clients with a complete range of grandstand solutions, Arena Seating have assembled a team of experienced specialist designers, engineers and project managers thus enabling us to provide bespoke solutions to clubs and venues of any size.

Our designers work with you right from the start of the project to provide the perfect solution regardless of complexity or scale.

Our project management team will ensure that the facilities are planned and installed on time, on budget and to the satisfaction of the health and safety and regulatory bodies in your locale.

SAFETY IS PARAMOUNT
IN THE WORK
WE UNDERTAKE

The Arena Sports Stand and Sports Shelter

Designed for Sports Arenas requiring substantial covered grandstand accommodation, this popular product provides a flexible modular cantilevered roof cover in conjunction with the proven Arena Seating tiered seating system. This classic design provides an unimpeded view for the spectator.

With its strong cantilevered or portal frame structure, the roof cover can be used with or without the tiered seating installed. It is available in 4, 7, 10 or 13 row formats, with or without end enclosures. It can be installed quickly and easily on a prepared concrete base using steel cladding in a choice of colours. Seats can also be provided to match club colours.

The modular nature of the system means it can be added to as finances and requirements dictate.

The Arena Sports Shelter is a smaller lightweight 4-row version of the Sports Stand with all the flexibility of seating configuration inherent in the Arena Seating system.

We can adapt the design to fit any requirement and a range of extras are available to enhance the facility.

A classic and economical design for permanent covered grandstand accommodation

- Strong cantilevered or portal frame roof structure
- Available in a series of configurations and sizes
- 4, 7, 10 or 13 row versions utilising the Arena tiered seating system
- Cladding and seats in a choice of colours and finishes
- Integral wheelchair areas

The LT Grandstand and LT Super Grandstand

Arena Seating's continuous investment into our product range caters for small and large clubs alike.

The LT and LT Super grandstand provides the perfect solution for smaller local clubs looking to enhance their seating facilities on sometimes very limited budgets as they move up the Leagues, without the need for expensive construction work. Although less flexible in available configurations than the Arena Sports Stands, this prefabricated tiered covered grandstand arrives on site fully assembled and is placed on the prepared foundations by a lorry-mounted crane. It can be added to as funds allow.

A range of extras are also available and can be tailored to meet a club's particular requirements.

An economical solution with a wide range of extras

- Seating in UV stabilised polypropylene, in a colour of your choice
- Each grandstand can be supplied for use as a tiered standing area for 85 or 120 spectators or seating for 50 or 75
- The LT stand units can be linked together for greater spectator capacity
- Wheelchair spaces can be incorporated into the design
- Complete stand is prefabricated and delivered to site via a lorry with an in-built crane
- Each stand is fabricated in painted box section steel and steel clad with low maintenance plastic coating

LT Portastand

Our very latest development, the LT Portastand is an uncovered 50-seater grandstand, which arrives fully assembled and can be fork lifted into position from a truck providing the most economical grandstand on the market today.

To the base of each seating unit are 8 adjustable height ground plates which spread the load over reasonably level ground, without the need for concrete foundations.

Beneath the unit, fork-lift truck lifting shoes are incorporated, allowing the stand to be lifted from the front or rear.

LT Portastand

- Specification similar to the other products in the LT range
- 50-seater uncovered units in 4-row configuration
- Can be fork lifted into position
- Multiple units can be stacked onto a flat bed trailer
- 86-seater uncovered unit available by adding 3 rows to the back of a 50-seater unit

Total Event Solutions

The Arena Group is the UK's largest event services company. We help to create the environment for the most prestigious events each and every year. Our individual group companies are recognised as the very best in their respective fields; specialising in the provision of temporary and permanent seating, temporary structures, multi-storey hospitality boxes, temporary support systems and a hospitality and event management service.

www.arenagroup.com

Temporary Structures

Arena Structures has been shaping key events for over 240 years. The company is the largest temporary structures supplier in the UK. Our technology and equipment are state-of-the-art and this combined with the know-how, experience and expertise of our team will guarantee a breathtaking event environment.

Temporary Seating

Creating the perfect environment for the audience to appreciate an event is the art. Seating provides focus and drama, where before there was only space. Excitement, anticipation and spectacle are amplified and defined by effective seating, allowing performance to exist through its spectators. Arena Seating provide excellent lines of visibility for spectators, whilst safely maximising the capacity for organisers.

Multi-Storey Hospitality

Arena Scene is the market leader in the supply of luxury multi-storey hospitality viewing boxes to events across the UK. Glass-fronted structures and balconies provide guests with a first-class panoramic view of all the sporting action. These structures provide the ideal environment for dining and entertainment at many of the country's major sporting venues and blue riband events.
